

Disroll P200/P2000

Compact rolled coin and banknote dispensers

The Disroll P200 and the Disroll P2000 are self-service devices dispensing coin rolls and banknotes according to the user's choice.

Disroll P200/P2000

Compact rolled coin and banknote dispensers

The Disroll P200/P2000 are compact rolled coin dispensers providing the user with coin rolls and one or two banknote denominations...

And all this in a minimal space (width only 553 mm). Located in a bank's self-service zone, the business customers can get change safely and 24/7.

Easy to use

After identification with his personal card*, the user selects the coins breakdown he wants, introduces his payment and the Disroll dispenses the set of coin rolls and banknotes* ordered.

The touchscreen guides the user step by step. It displays the details and the total amount of the order. The machine edits a receipt at the end of the operation.

Secure and user-friendly

The Disroll P200/P2000 are secure and user-friendly: identification with personal card*, reinforced alloy, security locks and a large colour touchscreen for a maximum comfort of reading.

Modular capacity

The Disroll P200/P2000 are equipped with 4 rolled coin hoppers in basic version and can feature up to 8 rolled coin denominations and up to 2 banknote categories.

Easy to manage

Thanks to its built-in Windows™ – based PC, the Disroll P200/P2000 are stand-alone machines giving its administrator high efficiency and flexibility.

The administrator card allows to monitor stocks and transactions from the front touchscreen, and the rear supervisor screen and keyboard enable the access to all the information from the back-office area.

They are equipped with a unique weighing system for each hopper which gives precisely the coin stock situation, without any physical intervention.

They provide the bank with a transaction log and a real-time stock management which makes account statements easier.

Applications

The Disroll P200/P2000 are especially designed for banking agencies willing to generalize self-service solutions.

Technical characteristics

Capacity:

- 4 rolled coin hoppers: from 80 to 100 coin rolls each (depending on the type of coins).
